THE GEOLOGY OF DENVER'S BUILDING STONES

Jack Murphy
Denver Museum of Natural History

Building stones in Denver's Landmark buildings reflect Colorado's geologic history and can be used as an educational resource. A survey of historic landmark structures shows that native granite, sandstone, rhyolite, marble, and travertine were mainly quarried for dimension stone until the Silver Crash of 1893. Pikes Peak Granite was widely used as foundation stones. South Beaver Creek Granite from south of Gunnison makes up the exterior walls of the State Capitol. Many mansions and churches dating from the late 1800's is made up of blocks of Lyons Sandstone from the Red Rock Canyon quarries south of Garden of the Gods, El Paso County. Marble from Yule, Colorado is probably the States best known stone because of its use nationally.

CSS Avalanche Safety Field Trip

The Society was fortunate to have Dr. Bill Hotchkiss, Scientist Emeritus with the USGS Water Resources Division, lead field seminars on avalanche safety for the Society on February 22nd and March 29th. Bill is a member of the National Ski Patrol and a co-founder of the National Avalanche School. He has given avalanche seminars all over the Rocky Mountains and is regarded as an expert in the field. The seminars were specially suited to the recreational skier or snowshoer who is unfamiliar with snow avalanche safety techniques and equipment.

With this edition of the Newsletter, I say goodbye. I will be retired from the USGS in the fall when CSS meetings resume.

Spring Field Trip

GEOLOGICAL HIGHLIGHTS OF THE COLORADO SPRINGS AREA

The 1998 spring field trip will be a single day excursion to the Colorado Springs area on Saturday, May 16. Highlights will include recent interpretations of the history of the Rampart Range, Cambro-Ordovician stratigraphy, and structural features in the Garden of the Gods. We'll meet at the Cold Spring Park and Ride at 09:00 AM at the base of the Garden of the Gods.

Guests are welcome. Although no strenuous hiking or climbing are anticipated, participants should wear sturdy footgear suitable for any terrain.

The cost of the trip includes transportation by 15-passenger vans equipped with CB radios, beverages, snacks, field guide, and good fellowship. Not included is lunch; participants need to bring their own. Enrollment will be limited to 36 people.

To register for the trip, complete the form below and send by 1 May 1998. If you have any questions, contact Lee Shropshire at 970-351-2285 or 352-8778. If you are otherwise informed sometime before 16 May, please contact Lee Shropshire at 970-351-2285 or 352-8778.

Last chance to sign up for field trip.
