STUDENTS: Great opportunity to network and present your research! The talk voted best in show wins \$250! Other speakers will be reimbursed travel costs. Recycled posters are acceptable too.

SUBMIT ABSTRACTS TO:
MELISSA.ANN.FOSTER@GMAIL.COM
BY SEPTEMBER 8.

Promoting the knowledge and understanding of science

The Colorado Scientific Society was founded in 1882 as a forum for the exchange of observations and ideas on the topics of earth science. Our lecture series occurs on the third Thursday of each month, from September through May. Lecture topics largely focus on earth science, and are open to the public. In addition to our monthly lecture series, the society is also active in public service. We fund student research grants, construct and post signs that describe local geologic features, and organize and lead several field trips.

For more information on the Colorado Scientific Society, upcoming lectures, and full author abstracts, see: www.coloscisoc.org
