

CONTENTS OF VOLUME II.

PART I.

Abstract of Minutes,	5-14
Address of the Retiring President; Richard Pearce, Jan. 7th, 1885,	1
Certain Interesting Crystalline Alloys; by Richard Pearce, . .	7
Notes on the Occurrence of Goslarite in the Gagnon Mine, Butte City, Montana; by Richard Pearce,	12
Meteoritic Iron from New Mexico; by L. G. Eakins,	14
Some Experiments on the Quantitative Efficiency of the Marsh-Berzelius Method for the Detection of Arsenic; by Wm. P. Headden and B. Sadtler, Jr.,	15
Emmonsite, a Ferric Tellurite; by W. F. Hillebrand,	20
Notes on some further Investigations on the Formation of Crystalline Alloys; by Richard Pearce,	24
Remarks on the Occurrence of Coal in the Carboniferous Formation at Aspen and Glenwood Springs, Colorado; by R. C. Hills,	25
Description of an Asphalt-like Mineral from Asphalt Wash, Utah; by R. C. Hills,	27
Notes on a Trip to Telluride, San Miguel County, Colorado; by P. H. van Diest,	28
Note on Columbite; by Wm. P. Headden,	31
On Allanite and Gadolinite: by L. G. Eakins,	32

PART II.

Abstract of Minutes,	15-32
Address of Retiring Vice-President, P. H. van Diest, Jan. 4th, 1886,	37
Notes on the Precipitation of Titanic Oxide by Hydric Sulphide; by Wm. P. Headden,	45
Notes on some Boulder County Veins; by P. H. van Diest, . .	50
Notes on the Artesian Wells of Denver; by Chas. G. Slack, . .	56
On the Occurrence of Garnet and Topaz in Lithophyses of Rhyolite; by Whitman Cross,	61
Note on what appears to be a New Mineral, from the Gagnon Mine, Butte City, Montana; by Richard Pearce,	70
On Ptilolite, a New Mineral; by Whitman Cross and L. G. Eakins,	71
A Modification of Berthier's Method for the Assay of Fuels, and its application to the Determination of the Heating Power of Bituminous Coals; by R. C. Hills,	77
Notes on some Colorado Ore-Deposits; by S. F. Emmons, . . .	85

IV

CONTENTS.

Notes on the recent discovery of Natural Gas in Pitkin County, Colorado; by R. C. Hills,	106
Notes on the Crystal Beds of Topaz Butte; by Walter B. Smith,	108
The Cimarron Land-slide, July, 1886; by Whitman Cross,	116
Circulation of Water through the Strata of the Upper Cretaceous Coal Measure of Gunnison County, Colorado; by R. C. Hills,	127
Notes on a new Occurrence of Copper Arsenates and associated minerals in Utah; by Richard Pearce,	134
Notes on Aqua-Marines from Mt. Antero, Colorado; by Rev. R. T. Cross,	138
Phenacite from Colorado; by S. L. Penfield,	141
The Elk Head Anthracite Coal-field of Routt County, Colorado; by F. F. Chisolm,	147
Additional Notes on Copper Arsenates and associated Minerals, from Utah; by Richard Pearce,	150

PART III.

Abstract of Minutes,	33-44
Mineralogical Notes I, II and III: by Walter B. Smith,	155, 175
Note on Phonolite from Colorado; by Whitman Cross,	167
Preliminary Note on Slipping-planes and lamellar Twinning in Galena; by Whitman Cross,	171
Note on Pharmacosiderite from Utah; by Richard Pearce,	180
Palaeontological Notes; by T. W. Stanton,	184
Note on a mixture of Bornite and Stromeyerite; by Richard Pearce,	188
On the Origin of Fissure Veins; by S. F. Emmons,	189
A Method for Determining Zinc in Ores; by Wm. P. Headden,	209
On Glaciers in the Rocky Mountains; by S. F. Emmons,	211
On some Eruptive Rocks from Custer County, Colorado; by Whitman Cross,	228
Preliminary Notes on Aspen, Colorado; by S. F. Emmons,	251
Address by the Retiring President, P. H. van Diest, Jan. 2, 1888,	278
