# Water & Energy in Colorado: Emulsifying Two Great Challenges in Four Parts

The Colorado Scientific Society, in collaboration with the Center of the American West, presents **Water & Energy in Colorado**. This 4-Day virtual symposium hosted by the Denver Museum of Nature & Science will focus on the science and cultural issues at the interface between water and energy in Colorado. Moderated by Patty Limerick, water and energy specialists together with insightful commentators on Colorado's present challenges and future opportunities, will highlight some of the most important issues facing our community today and in the future.

**Join us! Tuesdays & Thursdays** (10:00am -11:30am)

**August 11**

**PART I:  
Resource Providers**

**August 13**

**PART II:  
User Community  
Perspectives**

**August 18**
